

William Bowley

Engineering Student @ RMIT University

Melbourne, VIC · (+61) 0422 413 608 · wgrantbowley@gmail.com

github.com/wgbowley · linkedin.com/in/wgbowley/

Summary

Engineering student with practical experience working on projects independently and as part of a team. Comfortable learning new tasks quickly, following instructions carefully, solving problems and taking responsibility for getting work completed to a good standard. Looking for a local role where I can contribute, learn and gain further work experience.

Skills

- Reliable and organized approach to completing tasks
- Practical problem-solving and hands-on work
- Comfortable working independently or as part of a team
- Able to learn new systems, tools and processes quickly
- Good computer literacy and comfortable learning new software
- Careful attention to detail and commitment to doing work properly

Projects & Experience

Team Projects — RMIT University & Motorsport

- Worked with other students to plan, build and test practical projects.
- Took responsibility for assigned tasks and worked to agreed deadlines.
- Communicated with team members to coordinate work and solve problems as they arose.
- Checked completed work carefully and made improvements where required.

Independent Projects

- Planned and completed long-term projects independently from initial idea through to finished result.
- Organized tasks, documented work and tested results to identify and fix problems.
- Developed the ability to learn unfamiliar tools and processes independently.
- Managed projects alongside study and other commitments.

Education

Bachelor of Engineering (Honours) — Electrical

Mar 2026 — Nov 2029

RMIT University, Melbourne

Victorian Certificate of Education (VCE)

2025

Auburn High School

Additional

- Competitive swimmer — multiple state and regional qualifier
- Community volunteering — assisted with primary school fundraising events, including Bunnings sausage sizzles
- Built approximately 12 garden beds for Camberwell South Primary School
